# MINDFUL MONTESSORI Now Enrolling!

Primary  
Program

Full Day and Half Day for  
Children ages 2.5 years to 6  
years old!

Before/After  
Care

Morning 7:30am-8:45am and  
Afternoon 3:00pm-4:30pm

## Welcome!

We are an authentic Montessori preschool with experienced and Montessori trained teachers in a loving and nurturing setting. Our goal is to provide the best environment for your child.

We emphasize the emotional and social well-being of your child and provide beautiful Montessori materials that encourage learning and exploration.

  
*Lina Masri*  
FOUNDER AND DIRECTOR

## OUR CLASSROOMS

Our Foundation classroom (Ages 2.5 to 3.5 years) introduces children to social skills in a loving environment. The focus is on developing fine motor skills and independence. The multi-age classroom (Ages 3 years to 6 years) helps children gain skills and independence at their own pace with the guidance of the teacher. The children learn through meaningful activities while the older children act as leaders and role models and help the younger children. There is no limit to the amount of learning that can take place. The children progress through the Montessori curriculum with hands-on materials.

### We Offer:

- ✓ Five, Four, or Three-day programs
- ✓ Full and Half-day sessions
- ✓ Affordable Before and After care
- ✓ Lunch Bunch for morning children
- ✓ Music, Soccer & Yoga classes

## OUR CURRICULUM

### Practical Life

These activities encourage independence and improve fine motor skills, hand-eye coordination, and concentration. The child is attracted to activities that are real and exist in everyday life. With these carefully designed materials the child can sweep, polish, wash, dust, pour, scoop and garden.

### Sensorial

The materials refine the senses and develop spatial awareness as well as providing a strong mathematical foundation.

### Mathematics

The materials for Math introduce the concept of quantity and the symbols for quantity. The child learns how to count and compare. Using a variety of beads and symbol cards the child becomes familiar with the numbers as a decimal system including concrete experiences with the operations of addition, subtraction, and multiplication.

### Language

The Montessori child begins reading when he/she is ready and proceeds at his/her own pace. The Sandpaper letters provide a phonetic basis for reading. The moveable alphabet allows the child to build words without fatigue. The older children have journals and writing books to develop their writing skills.

### Science

We encourage scientific exploration by conducting simple experiments with the child. Our scientific experiments form the basis for the study of biology, botany, geography, as well as physics and chemistry. The children are introduced to History and Geography through learning about the continents and exploring different cultures.
